

EOS Announcement for Huawei eSpace NVR6016 Product

Date: June 30, 2018

Subject: EOS Announcement for Huawei eSpace NVR6016 Product

Dear Customers,

To help you better cope with challenges brought by market changes and technological innovations, Huawei hereby informs you of the milestones in the life cycle of eSpace NVR6016. Hopefully this information can give you a reference on making future network development plans.

The service of the eSpace NVR6016 will be stopped from December 31, 2018. After that day, Huawei no longer provides any services related to eSpace NVR6016 (including the service hotline). However, during the period of one year from the day December 31, 2018, you may visit <http://support.Huawei.com> to search or download the FAQ and resolved problem cases related to eSpace NVR6016.

Table1 describes the end of life milestones, definitions, and dates for eSpace NVR6016.

Table1 End of life milestones and dates for eSpace NVR6016

Milestone	Definition	Date
EOS	End of Service & Support. It refers to the last date of the service. After the EOS date, Huawei does not provide any service for the product.	December 31, 2018

Huawei suggests that you use new product or upgrade your old one to new version, which has similar features and capabilities but optimized functions compared with it. We will continue to provide high-level services for your new product.

Table2 Replacement

End of Life Release	Replacement Release
eSpace NVR6016	VCN540

Hopefully this announcement can help you plan your future networks. This measure will not affect the existing service relationship and quality. We are consistently dedicated to providing you with other excellent products and services. If you have any questions, please contact your Huawei account manager.
