Product Details

Product Features

- 16x PoE+ ports with a combined 240W power budget, ideal for power-hungry devices.
- 2x Gigabit SFP uplink ports for high-speed and reliable uplink connectivity.
- Advanced security features including port security, DHCP snooping, and IP source guard.
- Energy-efficient architecture minimizes power consumption without compromising performance.
- Compact design suitable for space-constrained environments.

Product Applications

- Ideal for small to medium-sized businesses needing a scalable and reliable network solution.
- Perfect for powering IP cameras, VoIP phones, and other PoE-enabled devices in an office environment.
- Suitable for educational institutions requiring a robust and secure networking solution.
